

Jump'n Java Agility presents the CONTROL UNLEASHED WORKSHOP SUMMER SERIES

*Creating a Focused and Confident Dog
with Kienan Brown*

Introduction to CU: Sundays June 15, July 13, August 17, 2008

9am – 5pm (Check-in 8-9am)

CU Continued: Saturday Evenings June 14, July 12, August 16, 2008

5pm – 9pm (Check-in 4:30pm)

**Seminar Location: Jump'n Java Agility Center,
2601 Spring St, Redwood City, CA**

If you read Control Unleashed thinking that it was written for your dog, you now have an opportunity to see the theory in action. Kienan is author Leslie McDevitt's former assistant who now lives in California. She has worked with Control Unleashed principles from the day they were created.

Dogs eligible to work in the workshop:

- *Dog gets sniffy*
- *Dog wanders away on course*
- *Dog is environmentally oriented out of mild concern or normal behavior*
- *Dog's mind drifts easily*
- *Dog listens to his handler but his body language continually shows he is stressed*
- *Dog is mildly responsive to sudden environmental changes but can recover quickly*
- *Dog barks and/or pulls and lunges at objects he is uncertain about but can be interrupted before reacting or he recovers quickly from a response and continues working.*

In addition:

- Your dog must be crate trained and used to being crated in a group environment (within 8 feet of other dogs) without (incessant) whining or barking.

Dogs NOT eligible to work in the workshop:

If your dog displays these "high-end" behaviors, you may sign up to audit without your dog.

- *Dog is hyper vigilant (can't stop scanning and worrying about everything in his environment) and is extremely responsive to sudden environmental changes (and cannot settle down)*
- *Dog has low arousal threshold (as in a "hair-trigger dog" that is always ready to go off)*
- *Dog cannot easily or quickly recover from a stressful event (she gives an example in the book)*
- *Dog barks almost nonstop and pulls/lunges so forcefully at dogs or unfamiliar objects that his handler is in danger of dropping his leash, being pulled off her feet or being injured*

IMPORTANT: Please be aware that registration for working spots will NOT be on a first-come, first-served basis. Rather, we will select dog and handler teams to participate based on the dog's training problems as well as the dog's ability to work in the group environment. Auditing spots will be filled in the order in which we receive completed applications and payment.

Control Unleashed Workshop Registration Form

Return this filled-out form with your workshop(s) fee

Name:

CU Workshop Status Page

Mailing Address:

City/State/Zip:

Daytime Phone:

Email:

Fill out the following if you are applying to work a dog in the seminar:

Dog's Name:

Breed/Age/Gender/Intact?:

For CU Continued registrants: Date you and your dog attended Intro to CU: _____
(CU Continued registrants may skip directly to choosing Workshop Date(s).)

What dog sport(s) are you training for?

Do you currently compete with the dog in that sport?

What behavior problem(s) are you coming to the seminar for help with?

Can your dog handle being 8 feet from other dogs without being explosively reactive? **Yes No**

If your dog is *moderately* reactive to other dogs in a group class, can he be redirected and stop barking? **Yes No**

Can your dog settle in a crate around other dogs when it isn't his turn to work? **Yes No**

Do you want an auditing spot if it is not possible to work your dog in the seminar? **Yes No**

Workshop Dates (circle all you are registering for – must send payment for each workshop chosen):

Intro to CU 6/15 7/13 8/17

CU Continued 6/14 7/12 8/16

Suggested sequence: Attend Intro to CU, practice for a month, then attend CU Continued

Fees:

Intro to CU

(Limited to 15 working human/dog teams, and 25 auditors)

Working Team - \$145.00

Auditor - \$50.00
